RE: MB Docket No. 15-149

Dear Chairman Wheeler,

The Harlingen Chamber of Commerce extends its support to the proposed broadband cable merger of Charter Communications, Time Warner Cable and Bright House Networks. Our organization works hard to ensure that our community in South Texas is a hospitable place for businesses to start, grow and thrive. Therefore, ensuring that our region has access to the latest broadband technology is of great importance.

One of the benefits of New Charter for our community is that the company is poised to make significant investments in expanding their networks in rural and underserved areas. Businesses of all sizes will benefit from these investments. We are also glad to see that New Charter will offer affordable and unlimited broadband. This will allow businesses to access the internet without worrying about data caps, modem fees or usage-based pricing.

Our Chamber is also impressed with New Charter's commitment to customer service. The company is planning to return Time Warner Cable call center jobs to the United States. Our community is home to a Time Warner Cable call center, and we have seen how these centers not only provide great jobs but also a better customer service experience. We are confident that other communities will enjoy the benefits of these centers as well.

We appreciate the FCC's commitment to the full consideration of this merger. Given how it will benefit consumers and businesses, we hope you will grant it your approval.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Gonzales". The signature is stylized with a large, sweeping "C" and a long horizontal line extending to the right.

Chris Gonzales  
Harlingen Chamber of Commerce
